## Making Grades

**Turner**  
Building the Future

### Punchlist Update

- Area A 1st Floor Overhead Punchlist Ongoing
- Area C 2nd Floor Punchlist Ongoing
- Area D 1st Floor Punchlist Ongoing

### In the Now

- Grading, Irrigation, and Landscaping Ongoing
- Area C 1st Floor Corridor Final Paint
- Atrium Terrazzo Polish
- Area A 2nd Floor Final Paint
- Areas A & C Test and Balance

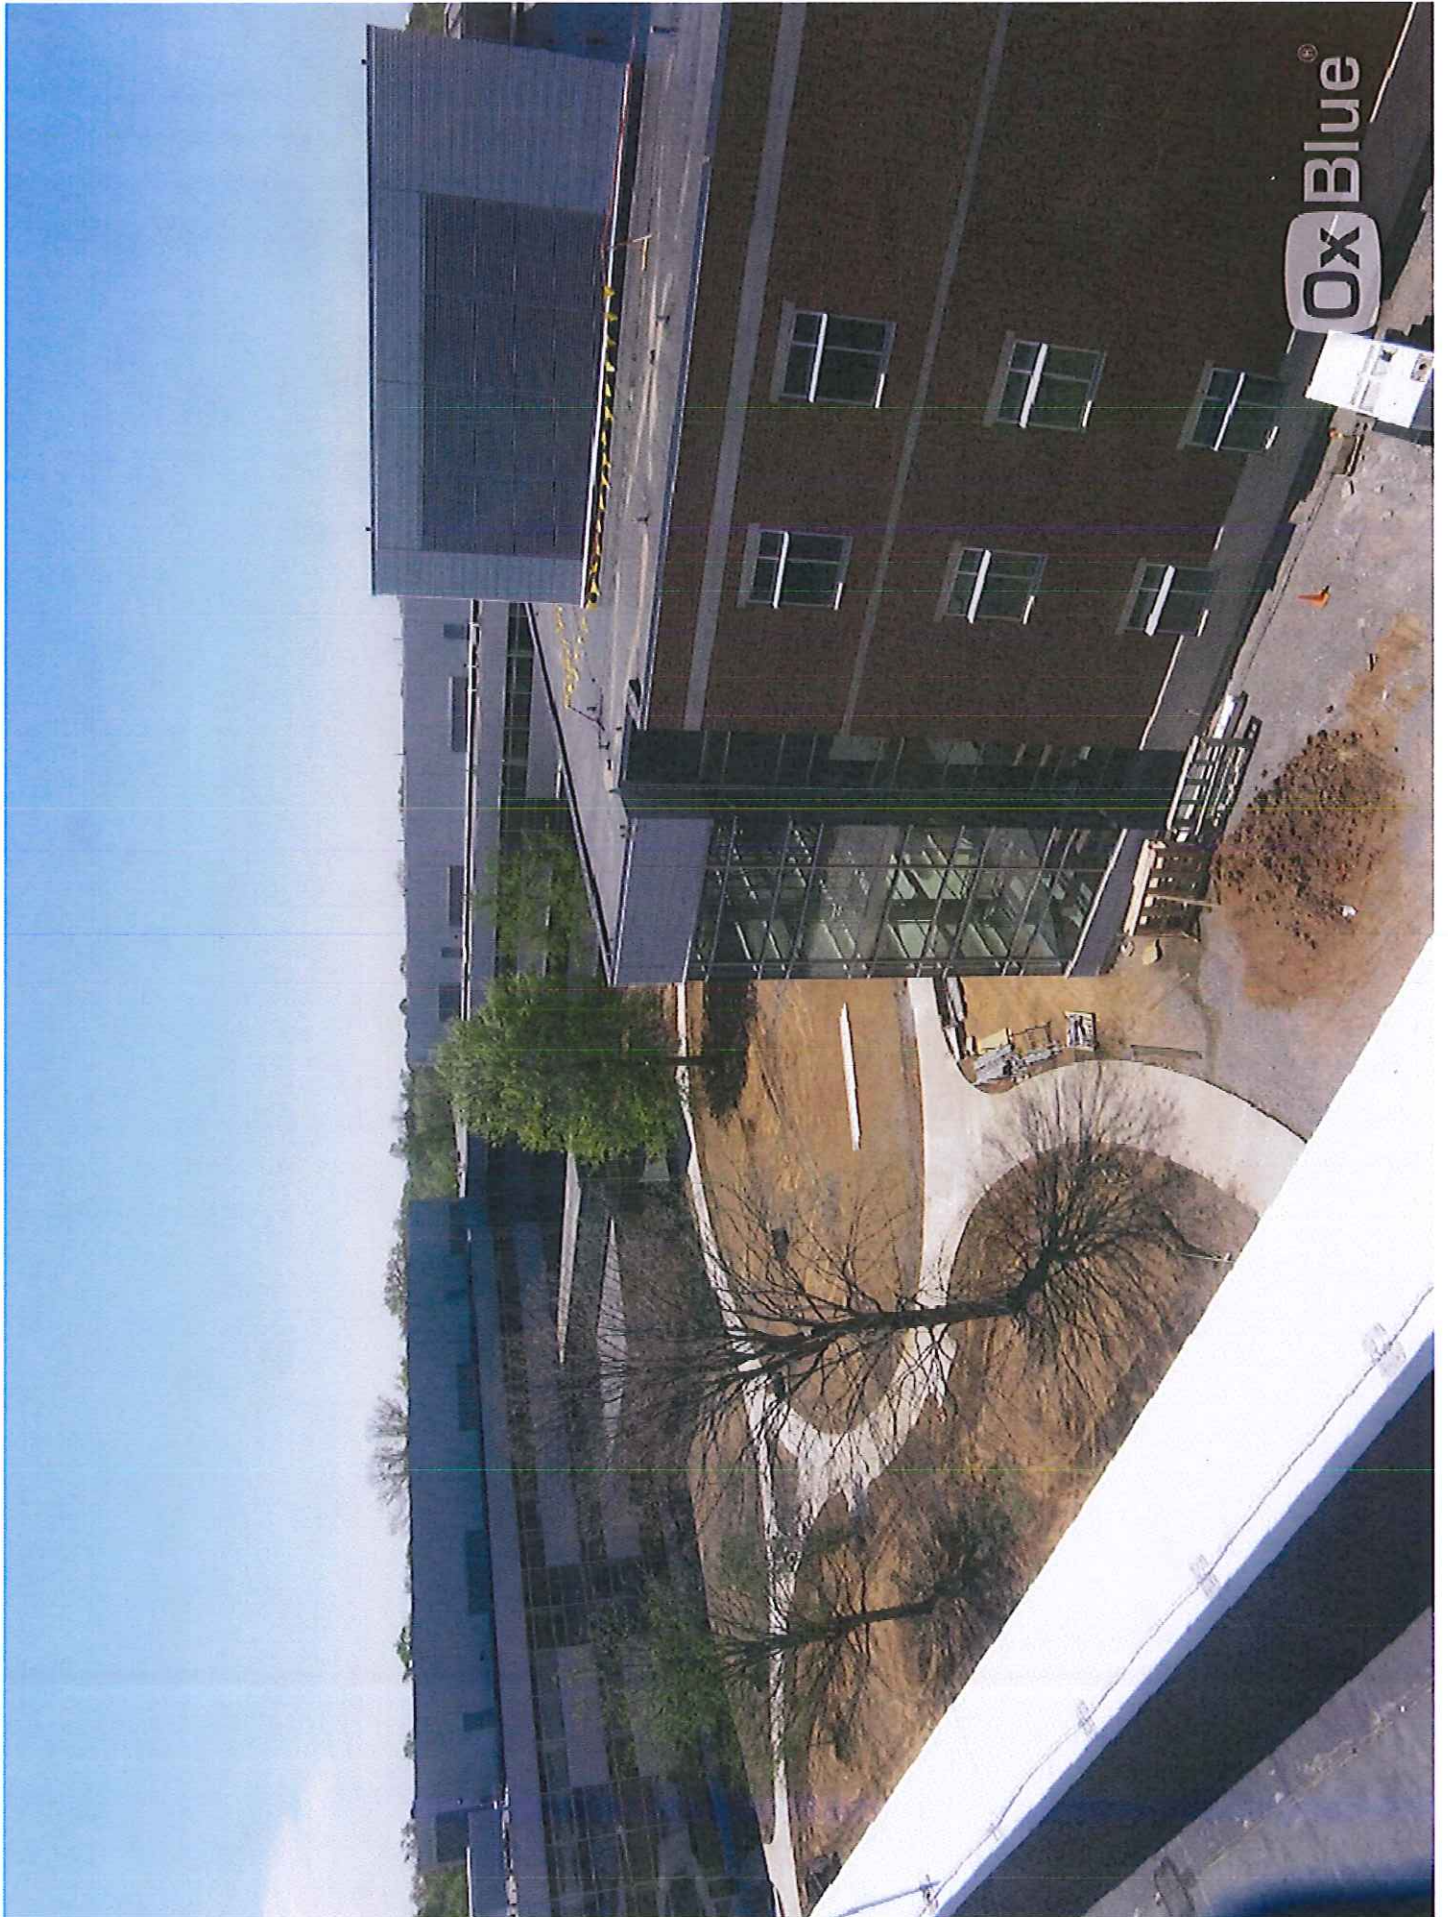

### A Look Ahead

- Lecture Hall Seating Installation
- DI System Start-up
- Rear Drive Concrete Work Beginning
- All Overhead Punchlist Items Complete

*Top Left:* Final grading is ongoing and walkways are formed up ready to receive concrete on the west side of the site. Walkways on the east side have already been poured and are complete. *Right:* An Area A lab on the third floor provides four fume hood work stations for students, along with countertop space for snorkels. *Bottom Left:* Metal panel installation at intermediate floors nears completion. Following the installation, fixtures such as supply diffusers and exhaust grilles will be installed on the panels.
